WISH LIST 2022

For this year's Congress, the organisers have prepared an online white board where participants can post their wishes as to how the Swiss political science community should look like, ideally. Participants can post new suggestions or endorse those already made. The white board has five categories:

- Equality: How can we promote women's careers in political science?
- Sustainability: How can we advance sustainability in our research and teaching?
- Dialogue: How can we improve the dialogue between political science, the media, and wider society?
- Chill: How do we preserve our life-work balance as academics?
- Visions: What are the general contours of your ideal-type academic world?
